About Me

Hello there, My name is khaled, I'm a 2-year experienced React.js Frontend Web Developer who enjoys building everything with JavaScript. In this duration, I have learned a lot of technologies, created many cool websites, collaborated with great developers and contributed to open source projects. So I'm always seeking to have an opportunity that matches my skills, to make the best use of all what I have learned.

Projects

That's my personal website where I show my skills and projects.

View : <https://kh2344168.github.io/myPortfolio>

This is my first project after using HTML CSS and JS after a month and a half of learning

I am proud of my first project

My first project using **REACT JS**

The design is taken from Professor Osama Al-Zero's channel

There are so many cool aspects to this project
